- R Programming, Python, and Orange for data analysis and data mining
- Analysis and recording of data, such as the BMI analysis in the NutriSynch capstone project

AGENTIC AI

- Agentic AI and AI-assisted development workflows
- Using AI agents to speed up building, testing, and debugging software

SYSTEMS & IT SUPPORT

- System administration and network administration
- Cloud computing
- Hardware diagnostics, software installation, system upgrades, network troubleshooting

OTHER SKILLS

- Project management
- Real estate and vehicle appraisal

TOOLS

VS Code • Git • GitHub • Vercel

PROFESSIONAL EXPERIENCE

Web-Based System Developer

Department of Information and Communications Technology (DICT) — Tagbilaran Office, Bohol

Jan 2022 – Jan 2024 (2 years)

Project: DICT Projects Information System

Tech: PHP (Native)

- Developed and maintained a web-based Project Information System for efficient project tracking and management
- Contributed to the design, implementation, and optimization of system features to meet user and organizational needs
- Ensured seamless integration with the existing IT infrastructure
- Provided technical support to system users

Computer Technician

Computer Republic — CPG North Ave., Tagbilaran City, Bohol

Jan 2020 – Dec 2021 (2 years)

- Provided technical support and repair services, including hardware diagnostics, software installation, system upgrades, and network troubleshooting
- Assisted customers with a wide range of technical issues, ensuring timely and effective solutions
- Maintained high standards of service quality and customer satisfaction while managing day-to-day technical operations

SELECTED PROJECTS

Own Projects (Present)

CMC SAO Attendance

Tech: React JS, Vite, Node.js

- Attendance system for school flag ceremonies, events, and meetings

NutriSynch

Tech: Python, React JS

- MIS capstone project that analyzes and records the BMI of students at La Salvacion Elementary School, Carmen, Bohol, Philippines

DTR MNNX

Tech: React Native

- Personal daily time record (DTR) mobile app for logging immersion and internship training hours
- Also used to record work hours during my time as a college MIS instructor

Baang Parish Management System

Tech: PHP (Native)

- Led development and automation of a parish management system covering member registration, sacrament scheduling, donation tracking, and record management
- Designed user-friendly interfaces and backend workflows to improve efficiency, accuracy, and accessibility of parish data
- Ensured scalability and security for the needs of parish administrators and staff

DICT Projects Information System (Jan 2022 – Jan 2024)

Tech: PHP (Native)

- Built and automated a system to centralize project data, timelines, and documentation
- Enabled efficient project tracking, improved data accuracy, and real-time reporting for better decision-making
- Customized features to fit organizational workflows, with attention to accessibility, scalability, and operational efficiency

EDUCATION

Bachelor of Science in Information Technology

Bohol Island State University, Balilihan Campus — Magsija, Balilihan, Bohol

2021 – 2024

Computer System Servicing

Bilar National High School — Yanaya, Bilar, Bohol

2018 – 2019

CERTIFICATIONS & LANGUAGES

Certifications

- Computer System Servicing NC II — TESDA Bohol
- Python Essentials Training — DICT Tagbilaran City
- Cyber Hygiene Awareness Seminar — DICT Tagbilaran City, Bohol
- Service Award (Band Member) — BISU Balilihan Campus
- Cisco Networking Academy (online): Computer Hardware Basics, Networking and Basic Troubleshooting, Data Analytics Essentials, Cyber Threat Management

Languages

English (Advanced) • Tagalog (Proficient) • Bisaya (Advanced)
